

Grazing Tables

Each grazing table is unique. We tailor the menu to your taste and occasion. Whatever you choose, it will be beautifully presented, garnished with flowers and foliage.

A typical grazing table contains cheese, charcuterie, crackers, fresh and dried fruit, savoury snacks, dips, antipasti, houmous, freshly baked bread with herb butters, chutney, olives, and lots more.

We include our props such as wooden crates and candles, and your table will be decorated with fresh flowers and foliage. We can also incorporate your wedding flowers and your own props and table decorations to tie the look together for your wedding day.

Grazing tables are really flexible as the amount of food can be adjusted depending on whether it's a snack or full meal that you are looking to provide. They're a perfect alternative to canapes, far more social! They have the wow factor and are great way to start guests chatting to each other. You'll have amazing photos for Instagram too.

Contact us at info@betterbuffets.co.uk to discuss your perfect grazing table.
